

Conferma Hotel Booker Express

Hotel Booker Express is the complete supplier-independent hotel booking platform

Designed for ease-of-use and faster customer adoption, Hotel Booker Express is a direct self-booking platform aimed at corporate customers.

Content

Hotel Booker combines the best available inventory providers, from GDS (Global Distribution Systems), Amadeus, Travelport and Sabre, to market-leading brands including Premier Inn, Travelodge, LateRooms, GTA, TransHotel, Hotel.de and Easytobook.com. This aggregation of content provides users with access to more than 150,000 hotels with the potential to book both corporate and negotiated rates.

Booking

Hotel Booker Express offers a single platform for corporate bookers and TMCs (Travel Management Companies) to manage the booking process consistently, ensuring both parties have a single view of the transaction. This allows corporate bookers to manage online bookings instantly while providing back-up from the TMC, where a preferred property is not available online.

The system creates and integrates into the passenger name record (PNR), ensuring a single data entry point, guaranteeing consistency.

Ease of Use

Hotel Booker is designed for ease of use when searching, booking and settling accommodation. Extensive search criteria enable users to swiftly locate accommodation that meets their requirements, while rich content provides detailed overviews of accommodation facilities.

Settlement

Hotel Booker Express also integrates the industry-leading Conferma Settlement Platform (CSP), delivering the most efficient centralised payment and settlement solution available. CSP provides access to Conferma's global network of banking partners, including AirPlus, American Express, Barclaycard, HSBC and MasterCard.

Security

Conferma provides the industry's highest security standards commercially available. Conferma is fully compliant with all relevant Payment Card Industry Data Security Standards (PCI-DSS) requirements. The compliance to these rigorous standards ensures that all financial aspects of the process are secure, providing our customers with peace of mind.

Features and Benefits

- Intuitive interface facilitates ease of adoption
- Content from multiple inventory providers in a single, unified booking process
- Clearer and more comprehensive supervision of travel management policies
- A single point of data entry guarantees consistency
- Integrated CSP delivers a world-class centralised settlement solution
- Multi banking partners (AirPlus, American Express, Barclaycard, HSBC & MasterCard)
- Extensive search criteria enables more specific searches
- Rich content provides detailed overview of accommodation facilities
- CSP matches booking and transactional data to produce a complete audit trail
- PCI-DSS compliance ensures security and peace of mind for customers
